SEVERAL SENSATIONS

Follow Each Other in Rapid Succession in New York.

HEINZE FIRM IS SUSPENDED

Attempt to Corner United Copper Results in Disaster to Butte Magnate and His Brother—Three Banks Go to the Wall.

New York, Oct. 18.—Sensations followed each other in rapid succession at the financial district Thursday as the result of the collapse of the projected corner in United Copper and the suspension of a prominent brokerage firm, Wednesday.

The firm of Otto Heinze & Co. was suspended on the Stock Exchange.

F. Augustus Heinze, the Butte copper magnate, resigned the presidency of the Mercantile National bank of New York.

The Amalgamated Copper company and its directors meeting cut its quarterly dividend from 2 per cent to 1 per cent.

The directors of the Boston and Montana Copper company declared a quarterly dividend of \$6 in place of a former dividend of \$12.

The failure of Haller, Soehle & Co., prominent bankers of Hamburg, Germany, with liabilities that may reach \$7,500,000, was announced.

The State Savings bank of Butte, Mont., of which the Heinzes are the principal stockholders, suspended.

As a result of these sensations the stock market was halting and irregular, but there was apparent a feeling that the break of the attempted corner in United Copper had cleared the atmosphere somewhat and the market rallied before the close.

The suspension of Otto Heinze & Co., of which firm Max M. Schultze is the Stock Exchange member, was based on a complaint to the exchange made by Gross & Kleeberg, the stock exchange firm which failed Wednesday. In a communication to the president of the Stock Exchange this firm charged Otto Heinze & Co. with refusing to accept 3,202 shares of United Copper, said to have been bought on the order of the Heinze firm. This action, Gross & Kleeberg state, was responsible for their failure. Attorneys for this firm stated that the amount owing to the firm by the Heinze firm aggregates \$600,000.

Says It Is Perfectly Solvent.

The Heinze firm announced that it is perfectly solvent and that all its legal obligations will be met. The attorneys say that the suspension by the Stock Exchange was accepted by the firm in order to give the latter an opportunity to sift its legal obligations from numerous claims which have been made against it and which are alleged are not legal obligations.

The resignation of F. Augustus Heinze from the presidency of the Mercantile National bank, it is said, was decided on at a midnight meeting at the home of C. W. Moore, who is largely interested in the bank. It was announced Thursday morning, Mr. Heinze at the same time giving out a statement in which he said that his resignation was due to the fact that he wished to devote all of his time to straightening out the business of his brother's firm. He stated positively that he had not disposed of his holdings in the bank and that the control would remain where it had been and that he would continue as a director. William B. Ridgely, at present United States comptroller of the currency, has been tendered the office of president of the Mercantile National, but has not yet decided whether or not he will accept.

The low price of refined copper, which dropped even lower Thursday, and the disorganized condition of that metal in the market, is the reason given for the reduction of the dividend in the copper companies. The announcement of the Amalgamated quarterly dividend of 1 per cent came as a surprise. While it was known here would be a reduction, 1 1/4 per cent was the lowest dividend expected.

True Flavors

With great care, by a process entirely his own, Dr. Price is enabled to extract from each of the true, select fruits, all of its characteristic flavor, and place in the market a class of flavorings of rare excellence. Every flavor is of great strength and perfect purity. For flavoring ice-cream, jellies, cake, custards, etc.,

Failures Followed Rapidly.

The failure of the Hamburg firm and the Butte bank both followed closely on the news of the suspension of the Heinze firm on the Stock Exchange. The German firm is said to have lost heavily in the recent drop in coppers and the developments on the New York exchange are said to have forced the failure.

The Butte bank was largely controlled by the Heinze interests, F. Augustus Heinze being the principal stockholder, and news of the Otto Heinze suspension on the Stock Exchange and of the failure of the Hamburg firm precipitated a run which immediately caused the suspension of the bank. In a statement issued by the officers it was declared that the bank is perfectly solvent and that the suspension is solely for the purpose of gaining time to arrange the bank's affairs.

A number of meetings were held Thursday in the offices of Otto Heinze & Co., but no statement of any sort was given out. It is said that the claims against the firm, growing principally out of the attempted corner in United Copper, may reach \$2,500,000.

William A. Nash, president of the Corn Exchange bank and acting chairman of the clearing house committee, stated that the committee, with the full co-operation of the officers of the Mercantile National bank, made an examination of its condition after the close of business Thursday night. The examination was very thorough and was not completed until a late hour. Mr. Nash and his associates said they were convinced from the results of the examination that the bank is perfectly solvent and able to meet all its indebtedness. The capital of \$2,000,000 is intact and there is a large surplus.

HAMBURG BANK FAILS.

Old Private Institution Goes to the Wall.

Hamburg, Oct. 18.—The old private banking firm of Haller, Soehle & Co. failed Thursday. The liabilities of the firm are variously stated and it was estimated early in the day that they were in the neighborhood of \$5,000,000, but the Hamburger Nachrichten says that it is informed by a banker who is in a position to know the facts that the liabilities will reach \$7,500,000. This will make the crash of this firm the biggest bank failure in Germany since the famous breakdown of the Leipziger bank in June, 1901. The assets of the firm have not yet been ascertained, but in banking circles the capital of the partners is declared to be \$2,250,000.

Nearly all the joint stock and private banks in Hamburg are affected in varying degrees by this failure, but a number of them say their claims are adequately secured. Among the firm's liabilities are acceptances for \$3,750,000. The largest amount held by any individual house seems to be \$175,000 in the hands of the Vereins bank.

The difficulties of the firm arose chiefly from its connection with a mining company at Teplitz, Bohemia, in which much capital was locked up. In addition the firm had interests in several coal mines in Austria and was concerned in several real estate ventures. Near Vienna it had established a so-called "caumasite" works, designed to exploit a new method of developing unusually high temperatures in furnaces. In connection with this enterprise was a glass factory. It is also declared that Haller, Soehle & Co. had put considerable sums in real estate mortgages. All these assets are hard to convert into cash without heavy loss, but the bankers holding the paper of the firm believe the liabilities probably can be met if liquidation is not too much hurried.

Haller, Soehle, & Co. had been in existence for seventy-seven years and ranked as one of Hamburg's old patrician houses.

The failure created a panicky condition on the bourse and various sensational rumors were in circulation. According to one report, Haller, Soehle & Co. were heavily hit by the fall in copper and affected by the difficulties of Otto Heinze & Co., but this apparently is a mistake.

TEXAS BANK FAILS.

One of the Oldest Institutions in the State Goes to the Wall.

Houston, Tex., Oct. 18.—One of the oldest banking houses in Texas went to the wall Thursday afternoon when T. W. House, banker, filed a general assignment under the state law.

W. B. Chew, W. D. Cleveland and J. C. Rice were named as assignees. They qualified by giving bond in the sum of \$100,000 with James A. Baker, Jr., Frank Andrews and Edwin B. Parker as sureties. The bond was presented to Judge Norman G. Kittrell and was approved. It is stated that the resources are amply sufficient to pay creditors 100 cents on the dollar.

Inability to realize on securities not readily convertible into cash is considered the only cause of the assignment. Prior to the action which placed the matter in the courts, the Houston clearing house held a prolonged session, but nothing was given out for publication.

The House bank was established in Houston in 1838 by the father of the

"Michael's" Furs.

We have called your attention to our furs but they are so meritorious that they will permit of a second mentioning. There are two things that we wish you to note. First, every fur we show is correct in style and second, you have a guarantee with every piece we sell. Of course the strength of this guarantee is dependent upon the reliability of the one who makes it. In this connection we but submit our reputation for **MAKING RIGHT WHAT IS WRONG** during the three years we have had the pleasure of your patronage. If you purchase a fur that is not what we claim it to be **BRING IT BACK.**

Our splendid selections

We show all the furs that are in vogue at present in the most dependable qualities we can secure and at as low a price as possible. They range in price from the 75c furs in the basement to the \$75.00 sets in the first floor section. It matters not the size of your purse you'll find the kind to please. we are sure.

Select your furs now

It is very reasonable to say that. Purchase your furs where you may, you will get the choicest numbers by making early purchases. The nattiest and neatest numbers are shown first in the season. We will lay any fur aside if you will make a small payment until convenient for you to pay the remainder.

See window display

If you would see some beautiful fur pieces see our window display. We believe that you can ask for nothing prettier and we are sure nothing more reasonable in price.

Mr. House has enormous holdings of land and other investments in many portions of the state and has been rated since he first engaged in the business as one of the state's wealthiest citizens.

It is stated that the bank had deposits of more than \$2,000,000 when the doors were closed.

BUTTE SAVINGS BANK FAILS

Owes Depositors Over Four and a Half Millions.

Butte, Mont., Oct. 18.—The State Savings bank of Butte has temporarily suspended. The bank, according to a recent statement, owes depositors \$4,621,970. Although a savings bank the institution transacted a general banking business.

Because of the suspension of what are known as the Heinze brokerage firms in New York a run was started on the savings bank, in which Heinze is the leading stockholder and a director, and that bank, availing itself of the "thirty days" privilege, closed its doors. None of the other banks, it is said, are affected. They experienced no runs. The following bulletin was posted by the officers of the State Savings bank:

"Because of unsold conditions and rumors that cannot be verified that

may cause unusual demands by depositors and owing to the shortage of currency and inability to secure additional currency immediately to pay demands which may be made the management has deemed it advisable in the interest of all depositors to suspend for the time being. The bank is solvent."

NEGRO KILLED A BEAR.

President Roosevelt Did Not Get a Shot at It.

Stamboul, La., Oct. 18.—One of the negro members of the president's hunting party killed a bear in the canebrakes near Bear lake late Wednesday. The animal attacked some of the young dogs trailing it and it was necessary to shoot it to save the dogs. The dogs struck two other bear trails during the day, but being young, did not keep to them. The Osborne dogs arrived at the camp Wednesday night and started out with the president Thursday morning.

The mayor of Fairmont has disappeared as mysteriously as though he had been kidnapped. He had \$150 of his own money with him and foul play is hinted at.

A MINNEAPOLIS man has invented a slot machine for the sale of postage stamps which he has hopes of selling to the government and which it is thought would be a very convenient thing for the smaller offices of the country. The machine will deliver a stamp of any denomination, and a combination is attached whereby two 2-cent stamps and a penny is delivered by the dropping in of a nickel.

The salary of the public examiner was raised at the last session of the

legislature, but not by the members. The bill was passed by both houses making a straight salary of \$4,100 but it was engrossed at a raise of \$400 making it \$4,500. Just who is responsible is not known and an effort is being made by Sam Langum, secretary of the senate, to locate the salary grab artist but as the bill which came from the house is missing from the records it may be a hard task. If it had been a \$20,000 steal there would have been no kick coming.

THE Transcript says the city of Long Prairie may secure electric power from Little Falls on account of the high rate paid for a poor grade of light received from the home institution. The council there has adopted a sliding scale, charging 16 cents per thousand for the first 5,000 wats consumed, 14 cents for the second, 12 cents for the next 200,000 and 9 cents per thousand for all over 200,000. This means a 12c and 14c rate for the ordinary consumer, and the heavy consumers secure their lights at a lower rate than those who use but little.

THE announcement that a Chicago wholesale house, the well known firm of Marshall, Field & Co., has made a big cut in what the trade knows as "domestics" but what is known to the consumers as cotton clothes, bleached and unbleached muslins of various weights and grad. s, has stirred jobbing circles to the center. The cut made by this concern amounts to fifteen per cent and as the commodity in question is one of the principal articles of housekeeping expense the reduction in price is all the more interesting to the public. The cut by this firm will have to be met by the other jobbing houses in the country and the result should be beneficial to those whose necessities require them to buy this class of goods. Now if the packing houses will announce a reduction in the wholesale price of meats and the other combinations that are holding up the price of living commodities to an almost prohibitive figure will follow suit we shall be able to lay in our winter's supply of coal and ask forgiveness for all the harsh things said and thought of the men who make a fellow wonder what has become of his summer wages every time the wind blows.

ORGANIZATION PERFECTED

Advocates Making the Minnesota River a Navigable Stream.

Mankato, Minn., Oct. 18.—Federal appropriations for the work of making the Minnesota river a navigable stream and state appropriations to be devoted to the prevention of periodical floods were projects earnestly urged by delegates attending the river improvement convention in this city.

Harmony and unity of purpose were shown and the meeting formed a permanent organization, to be known as the Minnesota River Improvement association, whose officers and laid plans that are expected to result ultimately in the desired improvement of the river.

The number of persons in attendance was about fifty, nearly half of whom were Commercial club members from Mankato. The latter took no part in the discussions, except Senator S. D. Works.

Most of the counties in the Minnesota valley were represented by the others present, among whom were Congressmen W. S. Hammond of St. James, A. J. Volstead of Granite Falls and C. R. Davis of St. Peter and State Senators Frank Clague of Lamberton, V. B. Seward of Marshall, H. F. Weis of Le Sueur, A. A. Poehler of Henderson, Charles A. Johnson of St. Peter and J. A. Collier of Shakopee. The temporary officers were Senators Weis, chairman, and Collier, secretary. Permanent officers were elected as follows:

President, H. F. Weis; vice president, A. J. Eckstein; secretary, J. Collier; treasurer, B. F. Pay, Mankato. The officers and county representatives were constituted an executive committee.

Senator Works said that the matter of financing the organization had been left to the executive committee. The convention then adjourned.

Judge Fleming Moved to Dismiss Case Against Alleged Rioters this Morning

ADJOURNED TILL AFTERNOON

Judge Albright Denied the Motion and Hearing of Evidence Commenced

The primary hearing of Arthur Witham, Michael Goedderz, Wm. Gustafson, Isaac Sundquist and John Gabiou, charged with rioting, was called in the municipal court this morning. Judge Fleming, for the defense, made a motion to dismiss the complaint, alleging that it did not set forth the facts necessary to constitute an offense. Judge Warner, for the prosecution, asked for time to examine authorities and cite cases in answer and court was adjourned until 2 o'clock at which time Mr. Warner took up the other side of the argument. After listening to the arguments of the attorneys Judge Albright denied the motion and the taking of evidence was commenced shortly before three o'clock this afternoon, Officer Hurley being the first witness sworn.

REPORT A CANARD

Telegram Said to Have Been Sent From Brainerd Announcing Wrestling Match is a Fake

A telegram is going the rounds of some of the daily papers purporting to be from Brainerd and stated that there would be a wrestling match in this city Sunday between Ed. Murray, of Brainerd, and "Kid Paul," of Duluth. The telegram is apparently a fake and the product of the fertile imagination of some city reporter. No one in the city who would be most apt to know of an event of this kind even know of any such person as Ed. Murray, and the general opinion is that it is a scheme to win some easy reputation for "Kid Paul," whoever he is.

Notice to Our Customers

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults.—H. P. Dunn.

TEACHERS' ASSOCIATION

Rural Teachers of Crow Wing County are Holding Their Meeting Today and Tomorrow

There was a large number of rural teachers of the county gathering here today to attend the meeting of the Crow Wing county teacher's association which convenes this afternoon and holds over until tomorrow. The session this evening will be held in the high school room and will be addressed by Pres. Bohanan and Miss Long of the Duluth State Normal school. The public are invited to attend.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. H. P. Dunn.

Military Prisoners.
Although living in a part of New York city, the military prisoners on Governors island have many customs which make it seem as though they were in another land. Time is not counted by them in mere days, weeks and months, but in "brooms." Many of the prisoners are short term men, and they are detailed to "police" the grounds. Of course this means much sweepings, and a broom lasts about a month. Thus two "brooms" in army lingo means two months. No prisoner is permitted to salute an officer in the manner prescribed for soldiers who behave themselves. Instead they fold their arms and look straight to the front whenever they pass those entitled to a salute. A soldier who is a prisoner is never referred to by his name. His official number, which is stenciled upon his clothing, is used instead.—New York Tribune.

5,000,000 FEET OF LOGS RESCUED

Brown-Burt Logging Company has Taken That Number From River This Year

ONLY A BEGINNING MADE

This is Scarcely a Fair Start in the Work of Clearing the Mississippi River

The Brown-Burt Logging company, which has the contract for clearing the Mississippi river of dead heads, has taken out 5,000,000 of logs from the main river so far. Of this amount 1,500,000 has been taken out between the sorting works above Little Falls and the dam at Brainerd. A portion of these are being taken out by large contractors, who have established camps from which to do the work, while others are being removed by farmers living along the river who get so much apiece for taking the logs out, skidding and stacking them so as to protect them from possible high water, and rolling them back into the river when they are dry enough. They will be sent to Little Falls ahead of the drive and will be sawed at once in the Pine Tree mill at that place.

There are being about 15,000 feet taken out of the Little Falls fowage each day. They are loaded into rafts and taken direct to the Pine Tree mill and unloaded from the raft direct to the slip and sawed at once.

H. H. Kidder, who has charge of the work on the Mississippi, says that while the river has been cleaned in spots the 5,000,000 feet of logs taken out has not made any appreciable commencement on the entire amount in the river bed. They hope to take out many more next year than they have this and will continue the work until the entire channel is cleared.

O'Connor-Fitzgerald

Miss Isabel O'Connor and James E. Fitzgerald, both of this city, were united in marriage at the residence of Rev. Father O'Mahoney, last evening, that gentleman officiating. The bride was attired in white silk trimmed with Irish point lace and carried white roses. She was attended by her sister, Miss Eunice O'Connor, who wore a gown of white embroidery and carried pink roses. The groom was attended by Harrie Kemp, both being in conventional black.

After the ceremony the wedding party repaired to the residence of the bride's mother, Mrs. Annie O'Connor, 224 North Ninth street, where a wedding supper was served and where the happy couple will reside for the present. The bride is a well known and popular young lady, having been raised in Brainerd, and the groom is a machinist employed in the Northern Pacific shops. They have a large number of friends here who will join in extending congratulations.

Negro Question Settled.

Richmond, Va., Oct. 18.—The suffragan bishops bill was passed by the house of bishops of the Episcopal convention Thursday night. This is the same bill that was passed by the house of deputies of the general convention Wednesday, so that it is a settlement of the negro question as far as the Episcopal church is concerned.

An Old Greek Glutton.

Occasionally we hear of voracious gluttons among the old Greeks. One of the most noted was Philoxenus, who wished he had a neck like a crane, so that his enjoyment of what he swallowed could be lengthened by several inches. This selfish gourmandizer used to keep his throat in training by gargling it with scalding water. Then he bribed the cooks wherever he went to send in all the meals furiously hot. Thus he finished the best there was of each dish before any one else dared to touch a morsel. A fellow guest was once so offended at this that he refused to remain at the table of Philoxenus, saying he had been invited to dine with a man and not with an oven.—Exchange.

At The "Unique"

The program for the Unique for the balance of this week opens with the beautifully illustrated song, "When You Know You're Not Forgotten by the Girl you Can't Forget," which was sung by Miss Kathleen Graham in her usually charming manner. "Tamer Hopkins," a presentation of trick animals was very interesting and natural. "The Foster Caddy," portraying a life drama completed the first film. After another beautiful solo by Miss Graham "Nature Fakirs" had the boards. This was a very laughable caricature of animal life ending with a good likeness of President Roosevelt. The "Stilt Race" is another comic piece and one which will appeal to every boy.

"Bijou"

The program now on at the Bijou is largely comic, "Charley's Dream," "The Amateur Hunter," and "The Lost Umbrella," furnishes the laughable element. The headliner, however, in "A Case of Arson," a beautifully colored film which was very fine. The illustrated song, "June Noon," by Miss Mahlum, was fine and well sung.

The November Housekeeper

The Housekeeper for November celebrates its thirtieth anniversary by issuing a double number. In fiction there is a long Thanksgiving story by Edith Livingstone Smith and short stories by Emily Ruth Calvin, F. J. Splitstone and Mary Heaton Vorse. One of the most interesting pages is a reprint of short extracts through the thirty years, the references of antiquated styles and fads being of special interest to women. There are several excellent cookery pages devoted to the celebration of the Thanksgiving festival and the other departments of the home are amply covered. When to Lift Your Hat.

In answer to the question, "Please tell when and where are, or is, the correct time for a gentleman to lift or remove his hat," we reply: Without consulting authorities of etiquette, in fact giving it to you offhand, so to speak, we should say at the following times and on the following occasions, respectively, the hat should be lifted or removed as circumstances indicate: When mopping the brow, when taking a bath, when eating, when going to bed, when taking up a collection, when having the hair trimmed, when being shampooed, when standing on the head.—Wichita (Kan.) NOTABLE MEDICAL DISCOVERY

Of Special Value to Many Here in Brainerd

One of the most notable discoveries and one that undoubtedly appeals more than anything else to many people here in Brainerd is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is now no excuse for anyone suffering indigestion or weak stomach.

It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy.

The symptoms of indigestion are numerous, such as distress after eating, flatulence, heart-burn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely in long standing and chronic cases if the treatment is followed for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by H. P. Dunn under an absolute guarantee to refund the money if it should fail to cure. 110-115-117

CONCERNING ODORS

Woman's Companion:—An "onion breath" may be gotten rid of by eating a small piece of charcoal after the meal. This is also an old-fashioned remedy for purifying the blood. For this purpose the bulk charcoal is far better than that which comes mixed with sugar and put up in packages.

Charcoal is also an excellent deodorizer for the refrigerator, and a saucer full of small pieces should be kept on one of the shelves. It absorbs all impurities and prevents a musty smell.

A teaspoonful of ground cloves on a few hot coals will have the same effect. A crust of stale bread boiled with cabbage will absorb the disagreeable odor.

A pound of sal soda dissolved in boiling water should be poured in drain pipes at frequent intervals. This dissolves the grease and other impurities.

A sponge placed in a saucer of hot water, to which has been added a teaspoonful of oil of lavender, will give forth a delicious fragrance of violets in a room. This is especially useful in the sick room, as flies will not remain where the odor of oil of lavender is. It has the added merit of being cheap, and a few cents worth will last a long time.

A generous lump of cooking soda placed in pots and pans in which fish, cabbage or onions have been cooked will thoroughly cleanse them and entirely remove the strong odor.

HOUSEHOLD NOTES

Jewelers place camphor in their show cases to prevent the silver tarnishing. It will work equally well in the housewife's silver drawer.

It is said that if wet boots or shoes are filled with dry oats and set in a cool place they will dry without stiffening. When dry rub well with vaseline or lard. Neat's foot oil was what our fathers used and nothing better for the purpose has ever been found, but it is hard to get nowadays.

Silver which has become very much blackened can be cleaned to look like new by boiling about half an hour in two quarts of water, to which has been added two tablespoons of sal soda.

In baking potatoes put a small pan of water in the oven and you will find they bake much quicker.

If the clock needs cleaning, put a piece of cotton saturated with kerosene on the floor of it, and the fumes arising will loosen the dirt and give the wheels a new lease on life.

NOT READY TO REPORT

Proxy Inspectors Have Not Finished Their Task.

CALLED FOR A SHOW DOWN

Attorney for Harriman Wanted to End the Delay in Voting for Directors of the Illinois Central—Harriman Talks to Newspapermen.

Chicago, Oct. 18.—Until three men who are locked in a room assiduously counting proxies are able to report to the stockholders of the Illinois Central railroad, there will be no election of directors. Twice Thursday the stockholders assembled only to be told that the proxy inspectors were not prepared to report. The final adjournment was taken shortly after 3 o'clock in the afternoon and carried the meeting over until this afternoon.

The attorneys for Mr. Harriman, who have all along been anxious to push matters to a speedy conclusion, chafed sorely under the delays imposed by the proxy inspectors. When it was evident at the morning meeting that the committee would not be able to report, Mr. Cromwell went to Judge Edgar Farrar, who represents Mr. Fish, with the proposition that all the proxies should be thrown upon a table in the general meeting and that conflicting proxies should be thrown out. This would have killed all the revocations that have been made and the proposition was promptly declined by Judge Farrar. Mr. Cromwell expressed himself as anxious for a "show down." The Fish faction, however, declined to consider the plan for a moment and Mr. Cromwell was forced to acquiesce in the delay.

While the meeting was waiting for some further word from the committee in order to determine the time to which the adjournment should be taken, Mr. Harriman picked up his chair and, carrying it to the end of the press table, sat down with the remark:

Can Settle the Question.

"I think you gentlemen can do more to settle this railroad situation than anybody else."

When asked for an explanation he said:

"You can do it by refusing to print one side of a proposition until you have seen the man on the other side, and let him have his say at the same time. I am sick, and most other men are also sick, of the continued attacks made on the railroads. When charges are made against a railroad the proper thing to do is to refrain from publishing them until the party bringing the charge and the representatives of the railroad have had a conference with representatives of the press present. As such things are now run the charges are printed in the papers and the public receives a wrong impression, because the railroad side of the question is not given at the same time. It is the first impression that counts. Very often a railroad is not able to make a reply for several weeks after the charge has been brought and the denial is not then noticed because the matter is no longer fresh news. The way to settle such things is to get together at the outset and let the charge and denial go before the public at the same time. This would do away with much of the ill-feeling that is now created against the railroads."

When asked if he had proposed this plan to other railroad men, Mr. Harriman said that he had not, that he desired to find out their sentiment on the proposition before doing so. He might take action, he said, within two or three months, but was not positive just what he would do.

Attorneys Were Startled.

Before it was definitely announced that the proxy committee would not be able to report the attorneys on both sides were somewhat startled by the suggestion that the transfer books of the company were open. When the stockholders' meeting was originally called it was not thought that it would last over one day, and the announcement was made that the books would be open again on Oct. 17. After a hasty conference it was decided that there was no way in which the books could be closed Thursday and it was therefore decided that they should be allowed to remain open until 3 o'clock in the afternoon, when they were again closed until next Tuesday at 11 a. m. It was agreed between the attorneys that no effort should be made on either side to purchase stock during the day.

The afternoon meeting lasted but a few moments and an adjournment was taken until this afternoon.

The general situation remains unchanged. Both sides claim that they expect to control the meeting and both are hunting earnestly for proxies or for the revocation of proxies previously given. Mr. Harriman is credited with sufficient confidence in the outcome to have offered a directorship to a prominent banker of this city.

Russian Countess Murdered.

Warsaw, Oct. 18.—Countess Zamoyska left Bialystok on a train for this city Wednesday but she disappeared mysteriously on the way and there is reason to suspect foul play. Blood-stained garments were found in the compartment occupied by the countess and it is supposed that she was robbed and murdered and her body thrown out of the car window.

INAUGURATED BY MARCONI

Regular Transatlantic Wireless Service in Operation.

Glance Bay, N. S., Oct. 18.—The inauguration of a regular transatlantic wireless service was accomplished by William Marconi and his assistants Thursday. Mr. Marconi stated Thursday night that more than 5,000 words had been transmitted between the station at Port Morien, six miles from here, and the Irish station.

Invitations to a large number of guests were issued for 2 o'clock Thursday afternoon but the worldwide interest in the undertaking brought a flood of messages in the early morning and the service was opened shortly after daylight. Among those present at the opening of the news service were representatives of a score of Irish and American newspapers.

"I am entirely satisfied with the result," said Mr. Marconi. "A great many papers have wired me for a personal statement of the accomplishment of the object I have been working for several years, but I am too busy to dictate anything. You can say, however, that everything has worked splendidly; we are going to operate a limited service for a time, but we have already handled from 5,000 to 10,000 words today on account of it being a special day and a large number of congratulatory and press messages have been exchanged between London and New York. We did not transmit commercial or private messages as a rule today, as we made it a sort of press day."

The inventor expressed absolute confidence in the triumph achieved in transatlantic communication and in the future of long distance wireless telegraphy. He said the work at the Cape Breton station was now practically finished and did not longer require his attention, which would be turned upon the problem of overland wireless communication between the Atlantic and Pacific coasts of America and other matters.

MONUMENT DEDICATED.

Erected in Memory of Wisconsin Soldiers Who Died at Andersonville.

Andersonville, Ga., Oct. 18.—Governor James O. Davidson and staff, with a large party of civilians from Wisconsin, Thursday dedicated the monument erected by the state of Wisconsin at a cost of \$10,000 to the memory of the Wisconsin soldiers who died at the Andersonville prison during the Civil war and are buried in the national cemetery here. The number of known dead from Wisconsin is 278. The monument is made of Georgia granite and is surmounted by a bronze eagle of large dimensions. The chief inscription on it reads:

"Let Us Have Peace."

The monument commission, D. D. James, president; C. H. Russell, secretary, and Lanensing Williams, accompanied the party. The principal addresses were delivered by Governor Davidson, Adjutant General C. R. Boardman and Judge L. H. Bancroft. The monument was presented by President James to Governor Davidson, who received it and delivered it into the care of the National Woman's Relief Corps, which has charge of the prison park. The keynote of the addresses was "Let Us Have Peace."

BLOWS OFF HIS HEAD.

Pennsylvania Man Uses Dynamite to End His Life.

York, Pa., Oct. 18.—Jacob Dittinger, aged fifty-nine years, of this city, committed suicide in an unusual manner. Placing a stick of dynamite in his mouth and holding it in his right hand, Dittinger exploded the dynamite, blowing his head off and shattering the hand that held the explosive.

Last Tuesday Dittinger, who was a well-digger by occupation, lost a sum of money, said to have been \$40. He brooded over this and finally began drinking heavily as a result.

Thursday night he entered the kitchen of his boardinghouse with the dynamite and some matches in his hand.

"Well, here goes to end it all," he said. He handled dynamite in his business and as he had often made such threats before, no attention was paid to him. He went into the yard and in a few moments there was a loud explosion.

EARTHQUAKE SHOCKS.

Create Widespread Interest Among Scientists.

Washington, Oct. 18.—Official statements regarding the violent earthquake recorded Wednesday and followed by a disturbance of less magnitude Thursday, indicate that the earthquake occurred at some points between 3,900 and 5,000 miles away, varying according to two estimates. The only direction indicated is that the motion was either east or west.

Thursday's shock, which kept the weather bureau seismograph moving for three-quarters of an hour, may have been an after-shock of Wednesday's disturbance. The occurrence has created widespread interest among scientists. It is possible that congress will be asked at its next session to authorize the extension of seismographic observations so that records may be made by the government at various points in the United States.

Clairvoyant Steals Diamonds.

Beloit, Wis., Oct. 18.—A clairvoyant stole diamonds valued at \$1,000 from Mrs. George Williams. He asked to be permitted to offer some charms on the gems and in a few minutes both diamonds and man disappeared.

IN OIL TRUST CASE

William G. Rockefeller Will Be the Last Witness.

INFORMATION ABOUT LOANS

Government's Attorneys Want to Know About the Millions of Dollars That the Standard Oil Company of New York Loaned Out.

New York, Oct. 18.—William G. Rockefeller, assistant treasurer of the Standard Oil Company of New Jersey, will be the last witness called in the hearing of the federal suit against the oil combine whose session will be adjourned this afternoon for a period of four weeks. Mr. Rockefeller telegraphed Moritz Rosenthal, one of the counsel for the defendants, that he would be in the city today and would be prepared to take the witness stand. Mr. Kellogg, the government's attorney, is particularly anxious to know about the \$32,000,000 loans made by the Standard Oil Company of New York to "interests other than Standard" during 1906. Mr. Rockefeller is treasurer of the New York company and Mr. Kellogg said after the hearing Thursday that he would inquire as to whom the loans were made and what collateral was accepted. The government's lawyers hope that Mr. Rockefeller will be able to make clear the nature of the large loans made to P. S. Trainor of the Southern Pipe Line company and to James McDonald by the Anglo-American Oil company.

Mr. Kellogg spent most of Thursday's session in endeavoring to learn the identity of the purchasers of the Manhattan Oil Company of Ohio, whose plant was bought and then dismantled by the Standard.

Individual witnesses were called during the day and statements giving costs and freight rates for oil for domestic and foreign shipments were placed in evidence.

FLAMES RAGE FOR HOURS

Costly Fire Sweeps North Dakota Town.

Oakes, N. D., Oct. 18.—Fighting against terrible odds in the shape of a heavy wind and the lack of water supply, the firemen and citizens of this town battled for hours to subdue a fire that threatened to wipe out the entire business district.

The blaze started in Jensen's mercantile store, spread rapidly to the adjoining buildings and soon passed beyond control.

The wind fanned the fire into a roaring river of flame which swept a half block on Main street and then leaped across the street and destroyed another half block before it was possible to check its progress.

The citizens worked frantically to save the town, but it was not till several hours after the fire started that safety was assured.

The blaze started at 1:30 in the morning and at noon the ruins were still burning. Nineteen concerns were burned out, and the total loss will not be less than \$120,000, with the insurance not more than one-third.

FOUR MEN DROWNED.

Gasoline Launch Overturns in the Illinois River.

St. Louis, Oct. 18.—It has been learned here that four men were drowned late Thursday in the Illinois river, six miles below Hardin, Calhoun county, Illinois, by the overturning of a gasoline launch and a fifth man, who was also pitched into the river, barely escaped. The dead are:

Harvey Angel, liverman, thirty-four years old; G. D. Bizillian, farmer, thirty-eight years old; Jeff Hunt, riverman, twenty-eight years old; J. C. Lammy, saloonkeeper, thirty years old.

Abner Poor, twenty years old, pulled off his coat while in the water and managed to swim to shore.

THREE PERSONS KILLED.

Nineteen Others Injured in Collision of Trains.

Greensboro, N. C., Oct. 18.—Three people were killed and nineteen others injured in a collision between a northbound Southern railway passenger train and a freight train at Rudd, N. C., eight miles north of here.

The fireman of the freight train is reported among the killed and the engineer injured.

Details are lacking. A wrecking train has been sent to the scene from Danville, and one from Spencer.

Three dead bodies have been brought to this city but their names are not known.

List of Dead Reduced.

Fontanet, Ind., Oct. 18.—The list of dead of the explosion in the Dupont powder mill was reduced to thirty-one when it was discovered that John Bobo, George Hodge, William Hodge, Frank Dial and Mrs. Audrey Owsley, sister-in-law of Superintendent Monahan, are living and are being cared for in neighboring farmhouses.

Girl Shoots Herself.

Belcourt, N. D., Oct. 18.—Mary Ann La Frambois, the eighty-year-old daughter of Pat La Frambois of Belcourt, accidentally shot herself with a revolver belonging to her father and died two days after the accident.

We have reached and are now celebrating

Our Third Business Anniversary

One of the strongest comments to be made in favor of any retail business is that it has grown with time. These days when competition is keen, and the demand for a "square deal" is so strong, no business but that organized upon the plan that pleases the people can expect to succeed. The public is quick to note the concern that has the most meritorious features and is not slow to express their favor by their patronage.

We have been with you for just three years and each year our business has shown a decided gain. This has not come without an effort on our part to please nor have you been slow in recognizing our efforts and giving your most hearty approbation in a very substantial manner.

We are not ready to cease growing. Our store must be larger and better than it is today—not next year but tomorrow, the day after and the next day. Our experience today will help us make a better store tomorrow and we shall continue this policy so long as we have the pleasure to serve you. You'll find better selections with each season and you will always find us true to the following guarantee:

THIS IS OUR STANDING PROPOSITION

If you have ever purchased anything of us that is not just as we represented it to be it is your fault—not ours—if it has not been made satisfactory. The standing proposition of our store is to RIGHT EVERY WRONG and if you have purchased an article, a garment or a piece of fabric of us that is not all that we claimed it to be we shall thank you if you will let us know and give us an opportunity to make it right. We use every precaution to see that everything is as it should be but occasionally something escapes our notice and you find the defect.

We will do even more. If you purchase anything of us and it is not all that you think it should be, bring it back and you will find us ready to do everything within reason.

We believe that the average woman depends more or less upon the reliability of the merchant when making her purchases and we want you to feel that in purchasing of us you are assured of satisfaction and we will do our full part to insure it at all times.

Our garment section shows the growth of our store

We might mention other departments but this section is a conspicuous example of what we have accomplished in the last three years. Like every other healthy business it has had a steady growth. We did not attempt large things at first but added to the size of the stock as you demanded it, until today we are making a showing of garments that you must acknowledge is a very large one.—So large that the best dressed woman within trading distance of Brainerd can find satisfaction.

We wish particularly to call your attention to the tight fitting garments as illustrated. We show splendid garments of this kind at \$16.50, \$18.50, \$23.75, \$25.00 and \$30.00. We have all other styles—loose fitting—short velours and furettes and other styles in vogue which we shall take pleasure in showing you at any time—courteously, too.

Our line of furs neck pieces and muffs is complete

The small neck pieces are much in vogue this season and the muffs will be much used. Possibly to a greater extent than in years. We have met this demand, and are showing a line that will give you pleasure to see. Particularly desirable are the fine mink, Japanese mink and sable squirrel furs that we show. See them in the windows.

SOME OF THE THIRD ANNIVERSARY BARGAINS

Money saving remnants in the Basement

It is not because of the name of our Basement that so many economical women find their way there but because of the real values offered. We are constantly on the lookout for remnant lots and then our store makes a large number for your selection. These consist of nearly every kind of material that is sold by the yard: At present we are showing remnants and short lengths of dress goods, wash goods, fleeced goods, outings, laces, dress trimmings and a host of other kinds and all at bargain prices.

Souvenir Pillow Bargain

We have a number of Brainerd scenic souvenir pillows which are now on special sale. They are of a most beautiful design, are stamped on the very best quality of art ticking and sold for 65c regularly. These will make excellent Christmas presents when worked—sale price..... **39c**

A very fortunate purchase of ribbons

If you want a real bargain see our Bargain Basement ribbon section. We have reached the place when we can use large quantities of goods and for this reason we were enabled to buy a large lot of taffeta and morie ribbons at a very small portion of their real value. There is every good shade and all widths. They make the cheapest ribbons you can purchase for the hair or for needlework. The morie ribbons are much in demand just at this time. These merit your immediate consideration if you want to save.

A Handkerchief Furor

We just received this morning fifty dozen ladies' and children's hemmed handkerchiefs—made of a very good quality of materials. They are 1 and 1/2 such hems and ordinarily would sell for 5c. You'll not buy anything more economical for the school girl—in the Bargain Basement at..... **3c**

H. F. MICHAEL CO

Stradivarius was born in Cremona, Italy, in the year 1648. To make violins was his sole and only business, his joy, his religion. He died in 1737, leaving behind him three sons, who tried to carry on their father's business, but failed to bring their work up to the master's standard.

Nobody knows the size of the ice cap covering and surrounding the south pole, for nobody has ever been able to explore it. But the antarctic circle is much colder than the arctic, and it is computed that the accumulations of ice are vastly greater at the southern than at the northern end of the earth.

The probable substitute for iron and copper when those metals shall have been exhausted will be aluminum. This metal is the base of all clays, and owing to the abundance of these materials the supply of aluminum will be many hundreds of times greater than that of iron and copper.

BETTER THAN SPANKING

Spanking does not cure children of bed wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

SHOOTS HIS CLASSMATE.

Student at Theological Seminary Seriously Wounded Associate.

Peoria, Ill., Oct. 19.—Louis M. Wilson, a student at the Eureka college theological seminary at Eureka, Ill., shot John Walsh, a classmate, during the assembling of the class for recitation. Wilson fired a revolver point blank at his victim, the bullets lodging in Walsh's neck near the jugular vein. Walsh's condition is serious. Thursday afternoon Wilson challenged Walsh to a fight, which was refused. Wilson purchased a revolver and practiced target shooting on the college campus just prior to the convening of the class.

CADOTTE INDICTED FOR MURDER

Negro Pugalist Indicted at International Falls for Killing Colored Man

COURT TERM WAS SHORT

Court Adjourned Last Night—One Man Sentenced to Pen for Year for Forgery

Sheriff P. A. Walsh, of International Falls, was in the city today, accompanied by a deputy, taking a Frenchman, who had been sentenced to one year at hard labor for burglary down to Stillwater. Mr. Walsh stated that the grand jury of Koochiching county last night indicted James Cadotte, the negro ex-pugalist who shot another colored man near Big Falls, for murder in the first degree. The shooting took place during a dispute over some logs last winter. Cadotte is quite well known through this section at one time as a puglist, but for several years had been living on a claim in what is now Koochiching county. Sheriff Walsh stated that the term of court was a short one and was adjourned last night. Cadotte was remanded to jail without bail to await the February term of court.

BACK GIVES OUT

Plenty of Brainerd Readers Have This Experience

You tax the kidneys—overwork them—They can't keep up the continual strain. The back gives out—it aches and pains; Urinary troubles set in. Don't wait long—take Doan's Kidney Pills. Brainerd people tell you how they act.

David Northrup, 918 Fron St., Brainerd, Minnesota, says: "Backache and kidney complaint were of short duration in my case after I began using Doan's Kidney Pills, procured at H. P. Dunn & Co's drug store. There has been a dull steady aching in my back and lameness across the loins. It only required one box of Doan's Kidney Pills to regulate the action of the kidneys to a normal condition, remove the backache and impart tone and strength to the parts affected. From the results I obtained I believe any sufferer from kidney complaint will find in Doan's Kidney Pills a most valuable remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y. sole agents for the United States. Remember the name—Doans—and take no other.

HEARING NOT YET FINISHED

Hearing in the Riot Charges was not Concluded at the Time of Going to Press

LITTLE PROGRESS MADE TODAY

No Witnesses Heard This Forenoon and Little New Learned This Afternoon

The preliminary hearing on the riot charges is still dragging and at 3:15 this afternoon the state had not yet closed. The first man on the stand this afternoon was officer Hurley, who was recalled but added little to his previous evidence except that he telephoned to the sheriff after returning to the City hotel from taking the man to the lock-up and that the sheriff came over town.

When the case of the state against Witham and others came up for hearing, the county attorney stated that he had been unable to find either the sheriff or his deputy this morning. That they left the court yesterday without his knowledge, when they were supposed to be on duty there. He was in a hard position because the officers on whose testimony he depended had not told the same story under oath as had been represented to him when the action was commenced. The matter was an important one and every opportunity should be given to get at the truth. He asked a continuance until 10 o'clock Monday.

Judge Fleming opposed any continuance and declared that the men were arrested on an illegal complaint. Judge Allbright reminded him that that question had been ruled upon and the defense had its legal remedy. The court did not care to listen to criticism of its rulings. The court then continued the case until this afternoon and said that if possible the case must be finished up this afternoon.

The first witness called by the state Friday afternoon was Officer Henry Hurley. He swore in substance that his attention was first attracted by a crowd running from the direction of depot toward City hotel. He at first thought they were basket ball players. Were following a man who was running. When he reached the crowd the man was down. He told the crowd to stand back. The man said he wanted protection. Witness said he would protect him. Picked up the man's hat and grip and took him to the lock-up. Came back over town. Found everything was quiet. Went over to the depot and saw Conductor Reed and told him to hold the train. Then went over to the lock-up, got the man and put him on the train; No. 13 going west. Did not learn the man's name. His right ear was cut. He was sitting down when he first saw him, his hat and grip being on the ground beside him. Saw the defendants there, except Witham. Saw Sundquist strike the man. Did not see anyone else strike him. He was not fighting, but trying to get away. Witness arrested man struck, but did not arrest the man who struck the blow. Witness drew his revolver when he told the crowd to stand back. None of the other defendants were taking part in the assault.

On cross examination he swore that he saw Sundquist strike the man and he was the only one.

Officer Barney was sworn. His story corroborated with that of Officer Hurley, except that he did not see Gustafson and did see Witham standing on the sidewalk later. There was quite a crowd there, probably about thirty men, but could not recollect who they were. First saw the crowd running toward the City hotel from toward the depot. There were two crowds, one followed the other. The first crowd was of about 12, the second 15 or 20. There was no noise except the noise of running. When he got nearer the City hotel he heard noise. He was at the First National bank corner when he saw crowd. Capt. Hurley spoke to him about the crowd. They stood and looked a moment and then Capt. Hurley started up the street, he up the sidewalk. Before he got there he heard someone holler. It was the man that was hurt. Hurley took the man in charge. There was a little excitement. The majority of the crowd were running back and forward. Only thing he heard said was that Gabiou said something about fixing somebody at the depot. Pulled his revolver and swung it and told the crowd to stand back. Saw the man down and bleeding. Supposed the crowd was about to do him some violence. There was blood on the man's face. He was within five feet of the man, nobody was between them. One of the crowd was standing partly over him with a club in his hand. Saw Sundquist strike the man with stick. Only saw him struck once. After Mr. Hurley left with the man the crowd stayed there two or three minutes, some stayed longer. Witness next went to the corner of Fifth and Front street, then to depot. Some of the crowd went up Front street as far as the Globe hotel, then

down to the depot. Witham was one man that was over at depot, also saw him at the City hotel. Witness did not go to Globe hotel. Witness could not say if Sundquist was one of crowd pursuing man.

On cross-examination witness swore that the other defendants which he saw were not doing more than the rest of the crowd. Did not see the rest take any part in the attack. The crowd was such a one as would usually gather at any disturbance on the street. Put a man on the train who was at depot. His face was cut across. Witham offered to help him get man on train and he accepted offer.

In answer to questions put by the court he testified: At the time of the assault one of the defendants struck the man with a stick or club. All rushed up in a bunch and stood over the man. It appeared as if they might be sore at something. The crowd did not seize him and turn him over to the police. Was a little excited himself at the time. All appeared to be in a mess. All appeared to be after this man. The man was running and the crowd was running after him. Some fellow would yell but you could not understand what was said. Could not tell at that time if they were chasing the man. Could not tell at that time if they were acting in concert.

County Attorney Warner called Rudolph Cregier in an attempt to prove that the accused were boiler makers, but an objection was sustained by the court and he left the stand without testifying.

Russell Baker, clerk at the Earl, was called as a witness, but could add nothing to the story of what took place in front of the City hotel.

George Ramsey, clerk for Drs. Camp and Thabes, was the next witness. He swore that he and Charles Frost were in the office in the First National bank building when their attention was attracted by the noise outside and they looked out of the window and then ran out. When they got there Officer Hurley had left with the man. Goedderz and Witham were the only two of the defendants he could identify as having been in the crowd. Charles Frost, jeweler at Houghton's, swore to practically the same state of facts except that he did not know any of the defendants.

John Wise, proprietor of the Globe hotel was sworn. Eight men rushed into the hotel and through it and out the back way. A crowd of 15 or 20 was following them. Crowd did not enter hotel. Heard one man say, "Turn the scabs out." The man was not one of the defendants. Crowd went back toward the City hotel, some in the street and some on the sidewalk.

Chief of Police McGovern swore that he signed the complaint on information furnished him by Officers Hurley and Barney. They were the only police officers on duty in that part of the city at that time. He had gone home at 10 o'clock.

Officer Moses DeRocher, on duty in East Brainerd swore that he met defendant Sundquist, and several other men on the dump about 11:30 that night, coming toward town. Sundquist was carrying a light stick or cane.

SPLendid HOME PRESCRIPTION

Said to Relieve Cases of Rheumatism as if by Magic

ANYONE CAN MIX RECIPE

Acts Promptly on Kidneys and Bladder and Should be Given a Trial by Sufferers

Cut this out and put in some safe place, for it is valuable and worth more than anything else in the world if you should have an attack of rheumatism or bladder trouble or any derangement of the kidneys whatever.

The prescription is simple, and can be made up by anyone at home. The ingredients can be had at any good prescription pharmacy and all that is necessary is to shake then in a bottle.

Here it is: Fluid extract dandelion, one-half ounce; Compound Kargon, one ounce; compound syrup of sarsaparilla, three ounces.

Take a teaspoonful after each meal and at bedtime. A few doses is said to relieve almost any case of bladder trouble, frequent urination, pain and scalding, weakness and backache, pain above the kidneys, etc. It is now claimed to be the method of curing chronic rheumatism, because of its direct and positive action upon the eliminative tissues of the kidneys. It cleanses these sponge-like organs and gives them life and power to sift and strain the poisonous waste matter and uric acid from the blood relieving the worst forms of rheumatism and kidney and bladder troubles. The extract dandelion acts upon the stomach and liver and is used also extensively for relieving constipation and indigestion. Compound Sarsaparilla cleans and enriches the blood.

As you or anyone of your family, especially the old folks, may be attacked

ONE OF THE GRAND PRIZES

To be given in the Great Voting Contest

"THE MAN THAT HATH NO MUSIC IN HIMSELF, NOR IS MOVED WITH CONCORD OF SWEET SOUNDS, IS FIT FOR TREASONS, STRATAGEMS AND SPOILS"—Merchant of Venice.

THE world owes its gratitude and homage to great single minded men who have devoted their lives, energy and genius to the production of one thing, to the accomplishment of one purpose or the final developments of one idea. **The Chickering Piano** is an example of the grand final result of years of patient labor, untiring effort and persistent, continual striving after the very highest artistic musical idea.

Whole lives have been spent at the task, sons have taken up the work where their fathers left off, and grandsons have continued in their fathers footsteps.

Thus has been evolved, step by step, the great triumph of mechanical genius and musical construction, a combination of brains and cunning skill that has given the world the greatest piano ever produced.

THESE famous piano fortes have been made continuously since 1823, and the pre-eminence of this piano is the result of 84 years of application of this genius. The jealous guarding and care of a reputation gained by patient labor and constant striving for the ideal, has made **THE CHICKERING PIANO** the masterpiece of piano art in the world today, and the more than four score years of experience is exemplified in the beautiful tone found only in the Chickering piano. It is peculiar to them. No other maker, though probably all have tried, has succeeded in reproducing it.

Receipients of 119 medals and awards, honored by learned societies, by world expositions, by states and sovereigns, including the decorations of the Cross of the Legion of Honor, the Chickering stands today in a class by itself.

And This is But One of the Pianos

We are giving Away Absolutely Free

THIS Special Chickering Piano we are offering you is known as the Louis XV style, or Art Grand, the newest Grand Piano made by this World-famous firm of piano makers. It is truly a magnificent instrument, of rare beauty and exquisite tone. The design is very beautiful and would add grace and refinement to any home where true art is appreciated. This piano is now on exhibition at our store, and it would be worth your while to see it, if for no other reason than that you could say, "I have seen the most perfect piano made."

No Contest in all the World Like This

THERE has never been anything like it. And mind you there are thirteen other magnificent pianos, together with eight hundred and eighty-six splendid, valuable prizes, any of them well worth trying for, and you can win one too, whether it be one of the grand prizes or one of the smaller ones lies entirely with you, but the winners of the big prizes will be those that

Start Now While the Contest is in its Infancy

If there is any little detail of the Great Contest that you do not fully understand, call or write to our contest manager, as we want to help you in every legitimate way that we can.

Important In reply to many inquiries we wish to state that a vote once voted cannot under any circumstances be transferred to another contestant, as this would be manifestly unfair, as several contestants toward the end of the contest might combine their votes and defeat some contestant who would rightfully be entitled to a grand prize. We would impress upon everyone that this contest is to be managed in a manner that will be absolutely fair and just to all.

ABANDON THE STRIKE.

Carmen of the Great Western at Oelwein, Ia., Will Return to Work.

Oelwein, Ia., Oct. 19.—The striking carmen of the Great Western railway, numbering about 200 here, have voted by a large majority to abandon the strike and Friday made many individual applications for their old places. It is believed that this action will break the backbone of the strike, which extended over the entire Great Western system.

NEW MISSIONARY BISHOP.

Rev. E. J. Knight to Take Charge of Western Colorado District.

Richmond, Va., Oct. 19.—The selection of Rev. Edward Jennings Knight of Trenton, N. J., to take charge of the missionary district of Western Colorado, the organization of a board of missions, creation of a committee to draft a canon regarding suffragan bishops, refusal of the house of deputies to reconsider its position as to the standard Bible, and a host of other acts marked the closing hours of the triennial convention of the Protestant Episcopal church.

In the house of bishops, Bishop Rowe of Alaska declined the appointment to the missionary district of Western Colorado and Mr. Knight was chosen to fill the vacancy.

The bishops authorized the printing of the prayer book in Spanish.

It was agreed that a committee of five bishops, five clergymen and five lay delegates be appointed to draw up a canon regarding suffragan bishops and report at the next general convention.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion. **Dr. Pierce's Golden Medical Discovery** is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. L. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensary; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.
